THE MASTER'S APPRENTICE

THE BRIDGE TO YOUR CAREER IN THE TRADES

The Master's Apprentice is an award-winning non-profit program that targets the overlooked workforce for successful careers in the construction trades.

Our innovative program breaks through the traditional barriers to discover hidden pools of talented, potential apprentices. As talent acquisition becomes more expensive, success and growth will come from investing in "your bench" and cultivating needed talent. Partner with us to meet your on-going needs in developing talent and adding diversity to your team.

The average cost of recruiting a new employee is now over \$4000!

The Master's Apprentice provides training to viable candidates at no cost to them and saving thousands for our partner companies that invest in student scholarships creating a Win/Win solution to your workforce needs. Subscribe now to our talent pipeline of vetted, qualified, and diverse pre-apprentices by providing tax-deductible scholarships for our students that may join your team.

646 MARIPOSA ST. DENVER CO 80204 - 303-842-5847
